

"The SUV versus the sports car."

- Patrick

What does SPORT mean to YOU?

**Are you interested in sport?
Do you have a physical disability?
Are you between the ages of 19-35?**

If so, find out more about *Abilities in Focus*, a project that's asking young adults to take photos and talk about sport.

For participating, you will receive \$15 and prints of your photographs. For more information, please contact Ranita by phone at 604-345-7239 or email abilitiesinfocus@gmail.com.

Purpose of this study: Canadian youth with physical disabilities are significantly less active than their able-bodied peers. This project aims to elicit perspectives on the factors that enhance and prohibit sport involvement, through the words and photographs of young adults with physical disabilities.
